Objective:

I am seeking a role where I can apply my technical skills, leverage my experience, and continue learning, while contributing to organizational success. I bring the ability to manage multiple priorities, make decisive decisions, and a strong commitment to both personal and professional growth.

Summary:

- **4 Year experience in FrontEnd Development with React JS, .JavaScript, CSS , HTML , Web API, Rest API, MUI Framework, BootStrap , Git, Tailwind, TypeScript, redux, DevExtream.**
- API Integration in a project .
- Ability to work well in both a team environment and an individual environment.
- Achieved a high rate of personal growth in the organization with consistent performance & results exceeding expectations..
- Produce clean, efficient code, based on specifications.

Technical Skills:

Programming Platform	JavaScript, TypeScript
Library	React , Redux , DevExtream
Code Repository Tools	GitHub
Other Tools	Git , Swagger
Web Development	HTML , CSS , Bootstrap , Material UI, Tailwind

Work Experience:

- Working as a Front End Developer in TechproCompsoft Pvt Ltd from April 2022 – Till date.
- Internship as a Front End Developer (React JS) in DUCAT Institute from November 2021 - March2022.

ACADEMIC DETAILS:

Class	Marks	Year	Board
10	6.6 cgpa	2011	CBSE
10+2	79%	2014	UP Board
B.Tech	64%	2019	UNSITE, JAUNPUR

Projects Current Organization (Techpro Compsoft):

Project #1: Hire Trainer

Role	Front End Developer
Duration	March 2023- Dec 2024
Skill Used	JavaScript , React.js, Html , CSS , Material UI
Database	SQL server

Project Description: HireTrainer is a web-based platform designed to streamline the trainer hiring process by enabling users to search, filter, and evaluate trainers efficiently. It includes modules for admins, users, and super admins, supporting trainer management, booking, scheduling, and profile verification.

Responsibility: In this project, my responsibilities included designing the UI for all components using React.js and Material-UI. Additionally, I handled routing and API integration to ensure seamless functionality within the application.

Project #2: Integrated Procurement System (IPS)

Role	Front End Developer
Duration	June 2024- Till Date
Skill Used	JavaScript , React.js, Html , CSS , Material UI,
Database	SQL server

Project Description: A procurement management platform designed to streamline the complete product flow—from suppliers to warehouse to distributors. The system enables automatic BPO number generation, real-time tracking of warehouse stock, monitoring of supplier deliveries and distributor dispatches, and supports updating orders under the same PO number when suppliers increase their order quantity.

Responsibility: In this project, my responsibilities encompassed the creation of numerous UI components utilizing React.js and Material-UI. Additionally, I undertook API integration to seamlessly connect various functionalities within the project.

Personal Information:

Name	Dilip Kumar
Father's name	Yogendra Nath Ram
Date Of Birth	18/06/1996
Languages	English, Hindi
Marital Status	Single

Declaration:

I affirm my familiarity with Information Technology and Software Development, along with my confidence in collaborating effectively within a team. I hereby certify that the information provided above is accurate to the best of my knowledge.
